Information about the European Regulation on Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) Restriction of Hazardous Substances Directive (RoHS)

Dear Sir or Madam,

The complete candidate list for SVHC substances relevant for REACH is available on the homepage of the European Chemicals Agency ECHA <https://echa.europa.eu/candidate-list-table>

We hereby inform you as your supplier that lead (Pb) with a concentration above 0.1% is present in our lead-alloyed products and therefore request your attention in terms of REACH and RoHS.

A regularly updated list of REACH-relevant alloys (incl. corresponding SCIP numbers) traded by us can be found under the following link: <https://cdn.weinmann-aach.de/media/alld3xmu/reach-1.pdf>

The use and further processing of our products is the responsibility of our customers. Weinmann Aach provides a broad product portfolio of lead-free alternative alloys.

For more information, please contact your responsible contact person.

Kind regards

Weinmann Aach AG
